

# Pro Digital

Hear every word with Pro Digital

# Pro Digital

Pro Digital makes your voice easier to understand, giving students the best chance to learn.

Pro Digital provides an amazing classroom soundfield solution so students stay engaged in learning. With multiple speakers located around the room, students can hear the critical speech sounds they need to learn.

Pro Digital is simple and easy to use. Its one-touch operation means teachers just turn on the microphone to start teaching. Pro Digital combines technology with simplicity — making it the ultimate addition to your classroom.

## Other Features

Unlimited number of systems per school

Directly Compatible with PFM devices (rebroadcast)

Up to 2 Simultaneous Microphone Channels

2 Audio Inputs

1 Audio Output (PFM/Podcasting)

3 External Sensor Inputs

Infrared Transmission Technology

5 year warranty

## Key Benefits

### Amazing Sound Quality

The Pro Digital offers incredible voice reproduction and is designed to ensure students can hear every word anywhere in the classroom.

### Easy to Use

Easy to set up and even easier to use. The Pro Digital has no learning curve for educators to get started. Just turn it on and experience the results.

### Built to last

The Pro Digital can withstand years of rugged use in the classroom. When not in use, the system will automatically go into sleep mode to save energy.

### PFM Device Compatible

Pro Digital is compatible with PFM devices and with our Hearing Inclusion Kit connects directly to assistive listening devices to support students with hearing impairments.

### OptiVoice Technology

Our OptiVoice technology adjusts the sound to ensure it's clear for students with hearing impairments.

### Adapto Technology

The Pro Digital uses our Adapto Digital feedback suppression to stop feedback before it happens — ensuring students don't get disrupted and stay focused.
