Not sure how to use the Qball?

Check out some videos here:

# Qball's Awesome <sup>New!</sup> Features

## Quiet Toss

Qball knows when to be quiet.

The Qball is a smart microphone that knows when it is being tossed and automatically mutes itself to avoid unwanted noise, **red** means it's muted, **green** means go.

Toggle on or off by quickly pressing the mode button.

## Hush Mode

Qball knows when to stay quiet.

Done using the Qball for a bit? Simply flip the Qball upside down onto the windscreen and it will automatically mute itself.

Toggle on or off by quickly pressing the mode button.

## Auto Sleep

Save battery life for more fun times ahead.

To save battery life the Qball automatically goes into standby mode if no movement is sensed for 15 minutes. To wake it back up just give it a shake.

Toggle on or off by pressing the mode button.

## Auto Off

Forget to turn off the Qball? No problem.

After two hours of inactivity, the Qball will automatically turn itself off. So, if you forget to manually power off—no worries. Odds are, there's more fun to be had on that charge.

Toggle on or off by pressing the mode button.

# Qball Tips and Tricks

## Google Translate

With Qball and Google Translate you can easily provide live translation over your projector or SmartTV

## amazon alexa

Looking for a fun & easy way to try Alexa in the class? Simply connect the Qball to your Windows PC and download the free Alexa app

## Voice Recording

With just a Qball and Computer you can record anything from lectures to presentations with your favorite software

## TIPS FROM TEACHERS

Encourage students to take a deep breath and calm their body before talking. This allows the **Qball** to unmute and for kids to focus, **Win Win!**

Use **Qball** as a motivator, if you do "this" we will use the **Qball** for "that".

Encourage students to say the **name** and make **eye contact** with the person they are tossing the **Qball** to.

The Battery will last all day. Turn the Qball on at the beginning of every day. That way when there is an unplanned moment during the day the Qball would be perfect for, give it a quick shake and you are ready to go.

## Qball Controls

Once the Windscreen is off, you'll see:

Power Button & Status Indicator

A

Volume - / +

B

Microphone

C

Mode Button

D

Charging Port

E

On the front of the Receiver, you'll find:

Status Indicator

F

Power Button

Mute Button

Mute Indicator

## Windscreen

Grab, twist, and pull the screen to reveal the Qball Controls.

See next pages for more info.

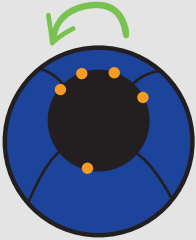

## Receiver

On the back, you'll find ports for power, and lines in/out.

## Before you Begin...

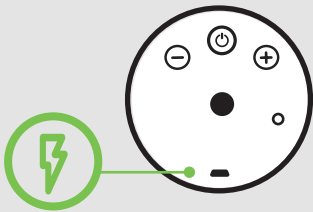

It's important to charge your Qball fully before the fun starts. Here's how to do it!

### 1. Access Qball Controls

**STEP 1:** Firmly grasp the windscreen (as indicated by the orange dots). Then...

**STEP 2:** Twist counter-clockwise 1/8<sup>th</sup> of a turn, and pull it out to reveal the Microphone and Controls.

### 2. Charge before first use

Plug the Qball into the charging port using the included USB-C cable. Charge until the Red charging LED turns Green before first use.

# How to Setup

Just a few quick steps, and you'll be Qballin' in no time!

## Step 1 of 2

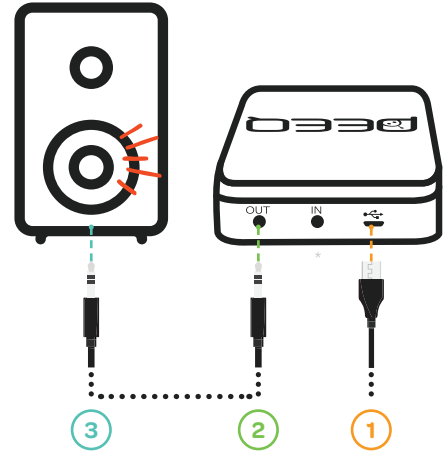

### STEP 1'S OBJECTIVE :

Setup the Receiver—which is how Qball "talks" to your speakers.

**STEP 1.1:** Plug the Receiver into the wall with the provided USB-C power cable, and it will turn on automatically.

**STEP 1.2:** Connect one end of the provided Audio Cable into the OUT port on the back of the Receiver.

**STEP 1.3:** Connect the other end of the Audio Cable into the AUX IN port on your speaker.

\*If you prefer to use the LINE IN port, check out [buyqball.com/support](http://buyqball.com/support) for instructions.

## Step 2 of 2

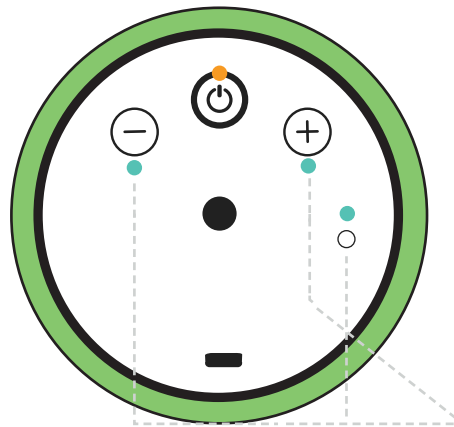

### STEP 2'S OBJECTIVE :

Power on the Qball, Pair, then Play!

**STEP 2.1:** Once your Qball is charged, turn it on by pressing the power button.

**STEP 2.2:** The LED indicator light around the power button will change from flashing Green to solid Green, indicating a connection has been made.

**STEP 2.3:** You can then adjust the volume using the ⊕ and ⊖ buttons, or select a mode. Replace the Windscreen, and you're all set!
